Master's Message

Greetings Brethren,

Feels like Spring is getting its footing. Temperatures are bumping up against the 80's these days. Get outside and go for some walks or hikes!

We will return to weekly meetings commencing with our March Stated Meeting. March 9 meeting will be to discuss how we can get back to Degree work. We will still observe the same attendance guidelines as our Stated Meetings, but we'll explore options and levels of comfort for everyone. We're not completely "out of the woods" yet, but making progress.

Contact me out the Lodge if you have questions.

"It is our duty to make the best of our misfortunes, and not to suffer passion to interfere with our interest in the public good." George Washington 1778

Fraternally,
Don Davis
Worshipful Master

Greetings from the South

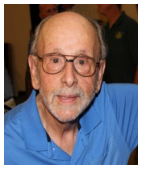
Brethren,

Less than 3 weeks ago, my family and I made our move to Dallas, TX, and it has already been a challenging experience. Over the last few days, the weather has been troublesome here - snowfall, freezing temperatures, rolling blackouts, horrible road conditions. Times like this test your will and your strength, as one tries to find ways to keep warm and keep safe from the trials and tribulations Mother Nature is throwing your way.

I think of the lessons I have learned from my fellow Masons, and they truly keep me focused and grounded. As Masons we persevere through life's challenges and learn from the experiences we face. We humble ourselves to be thankful for the things we do have, even when we lack some basic necessities such as electricity and heat. I'm thankful for my wife whose been a trooper through it all, the roof over our heads, and for the few meals that we've been able to have during the blackouts. We definitely don't take these things for granted.

Be well Brethren.

Fraternally,
Eddie Chavez
Junior Warden



Nugget of Wisdom

By David Woodland, PM

FAILURE

What does that word mean to you? Typically, it implies that some effort had been spent to accomplish something to a successful end without the planned result. So, that is the meaning we asked for, a lack of success we sought. Somehow, we usually look for the reasons the effort failed, blaming lack of funding, effort, conditions, someone else, and of course, luck. Sure, we can say it lacks success, but wait, there's more.

Any of the reasons cited for failure can be used to explain the negative results, but actually there are positives, especially the learning experience. Failure is a teacher. Study what was missing; was it knowledge, effort, conditions, or do you just blame bad luck?

Consider what you may call a failure. Be it not an end, not a defeat, but the start of new ideas, new strength to carry on, and a vision of new ideas for the future. We do not quote Aristotle, Confucius, or Lincoln. Listen to every parent who must have said, Learn from your mistakes".

Appendant Bodies List

If you are a member of one of these appendant bodies and have not attended for awhile, make this year the year you come back. You will surely be welcomed. You can reunite with old acquaintances and meet some new ones. So, come on out at the time and dates noted. We would love to see you again.

LOVERS OF WORDS (LEXOPHILE)

Did you hear about the guy whose whole left side was cut off? He's all right now.

The butcher backed up into the meat grinder and got a little behind in his work.

To write with a broken pencil is pointless.

A thief who stole a calendar got twelve months.

A dentist and a manicurist fought tooth and nail.
